# SUN Yi Xiu

ysunem@connect.ust.hk | +86 15611677976 | yixiusun.github.io

## EDUCATION

**The Hong Kong University of Science and Technology (HKUST)** **Hong Kong, China**
*Candidate for a Bachelor of Science degree in Data Science and Technology* Sept 2024-present

- Major GPA 4.209/4.3; Overall GPA: 3.949/4.3
- Relevant Coursework: OOP and Data Structures (A+), Design and Analysis of Algorithms (A+), Machine Learning (A); Probability, Applied Statistics (A+), Analysis (A), Discrete Mathematics (A+), Multivariable Calculus (A+), Linear and Abstract Algebra (A+), Calculus (A+); Internet Computing (A-)

**The Experimental High School Attached to Beijing Normal University** **Beijing, China**
Sept 2021-June 2024

- Ranked 1478/55936 in National College Entrance Examination

## RESEARCH EXPERIENCE

**Research on Robot Manipulation World Model** **Hong Kong, China**
Feb 2026-present

- Reproduced CausVid (an autoregressive video generation model) and applied its distillation strategy to an action-conditioned video generation pipeline.

**Research on Brain Decoding (HKUST)** **Hong Kong, China**
Sept 2025-Jan 2026

- Contributed to a project by performing data visualization, retrieving similar images, and writing scripts for aligned data extraction.
- Reviewed and reproduced related work on EEG foundation models and EEG/fMRI-to-image models (e.g. CBraMod, MindEye2 and ATM) and conducted ablation studies to analyze model design.

**Research on LLM Benchmarking in Medical Education (HKUST)** **Hong Kong, China**
Jun 2025

- Studied related literature on LLMs in medical/non-medical education and analyzed methodologies for benchmark design.

## PROJECTS

**HackTheEast Hackathon 2026 (GitHub)** **Hong Kong, China**
**Feb 2026**

- Built a web platform that presents research papers in a social-media-style feed.
- Deployed the system on AWS and implemented real-time paper retrieval through the arXiv API.
- Integrated Gemini API to generate aligned summaries and images for newly loaded papers.

**The Mathematical Contest in Modeling (MCM) 2026** **Hong Kong, China**

Jan 2026

- Evaluated the feasibility of space-elevator cargo transportation using astrophysical constraints.
- Built optimization models (e.g., linear programming) to simulate and schedule material transport.

**Internet Computing Coursework: Online Multiplayer Game (Webpage) Hong Kong, China**
Nov 2025

- Collaborated in a 3-person team to develop a two-player online gaming website.
- Developed the core game logic, including physical collisions and spring simulations, while also implementing the majority of the stylized animations.
- Designed a gameplay mechanic where players drag tethered balls to strike targets and earn points.

**2025 Hong Kong Inter-University GenAI Hackathon for Sustainable Development Goals**
**Hong Kong, China**
*Finalist* Sept 2025

- Led a 4-person team and handled the core technical development, including full-stack implementation, model integration, and database design.
- Designed and developed a locally hosted web application for detecting food contraindications based on user input and images, advancing dietary safety.
- Advanced to the Final Round.

**Deep Learning Coursework** **Hong Kong, China**
Feb 2025

- Designed and trained an MLP to solve a regression problem.
- Implemented CNNs for video-based action prediction for autonomous driving scenarios.

## AWARDS

**University Awards:**
**Chern Class Scholarship (25 Fall)** (for students with mathematical excellence)
**University's Scholarship Scheme for Continuing Undergraduate Students (2025/26)**
**Dean's List (24 Fall, 25 Spring, 25 Fall)**

**Informatic Olympiad:**
**Asia-Pacific Informatics Olympiad (APIO) — Silver Medal (May 2022)**
**National Olympiad in Informatics in Provinces (NOIP) — First Prize (Dec 2021)**

## SKILLS

**Language:** Mandarin (native), English (fluent)
**Programming:** Python (PyTorch, NumPy, Pandas, etc.), C++, JavaScript
**Tools:** Git, LaTeX, Linux
